

The “13th International Conference on Applied Analysis and Mathematical Modeling” jointly organized by Biruni University and Siirt University will be held on 27-31 July 2026 in ISTANBUL, TURKEY. We would like to invite you to present a paper or a poster at the conference whose main theme is the topics presented below or general mathematics with applications.

Honorary Chairs

Adnan Yüksel (Rector of Biruni University)

Chairman

Mustafa Bayram, Turkey

Co-Chairs

Aydın Secer, Turkey

Amar Debbouche, Algeria

Local Organizing Committee

Huseyin Aydın and Yakup Yildirim, Biruni University, Turkey-Chair

Handenur Esen Yıldız Technical University, Turkey

Sertan Alkan, Iskenderun Technical University, Turkey

Handan GURSOY Demir, Iskenderun Technical University, Turkey

Ismal Onder, Yıldız Technical University, Turkey

Taylan Demir, Ankara University, Turkey

Tugcem Partal, Recep Tayyip Erdogan University, Turkey

Melih Cinar, Yıldız Technical University, Turkey

Neslihan Özdemir, Yıldız Technical University, Turkey

Hakan Adıguzel, Sakarya University of Applied Science, Turkey

Ibrahim Emiroglu, Yıldız Technical University, Turkey

Nuran Guzel, Yıldız Technical University, Turkey

Osman Özcan, Firat University, Turkey

Sebahat Ebru Das, Yıldız Technical University, Turkey

Samet Kadioğlu, Istanbul Technical University, Turkey

Sevgi Esen Almalı, Kırıkkale University, Turkey

Gülsemay Yigit, Bahcesehir University, Turkey

Burhan Tiryakioğlu, Marmara University, Turkey

International Program Committee

George Anastassious (USA), D. Baleanu (Romania) and A. Akgül (Turkey)-Chairs

Abdelsalam Gomaa Abdelsalam, Qatar University, Qatar

Abdon Atangana, University of the Free State, South Africa

Ahmed Bokhari, Algeria

Jamal-Odysseas Maaita, Greece

Abdul Rouf Alghofari, University Brawijaya, Indonesia

Abdurrahim Yılmaz, Middle East Technical University, Turkey

Adem Kilicman, Putra University, Malaysia

Agnieszka B. Malinowska, Bialystok University of Technology, Poland

Alexey Lukashov, Saratov State University, Russia

Ali Akgül, Siirt University, Turkey

Aly R. Seadawy, Taibah University, Saudi Arabia

Andrei Shkalikov, Moscow State University, Russia

Behzad Ghanbari, Kermanshah University, Iran

Burhaneddin İzgi, Istanbul Technical University, Turkey

Carlo Cattani, University of Tuscia, Italy

Cemil Tunc, Medipol University, Turkey

Chaudry Masood Khaliq, North-West University, South Africa

Devendra Kumar, University of Rajasthan, India

Dianchen Lu, Jiangsu University, China

Elçin Yusuföğlü, Uşak University, Turkey

Fairouz Tchier, King Saud University, Saudi Arabia

Faruk Ucar, Marmara University, Turkey

Hari M. Srivastava, University of Victoria, Canada

HongGuang Sun, Hohai University, China

Hossein Jafari, University of South Africa, South Africa

İdris Dağ, Eskişehir Osmangazi University, Turkey

Jagdev Singh, JECRC University, India

Jordan Hristov, University of Chemical Technology, Bulgaria

(Tentative) Invited Speakers

George Anastassiou, USA

Dumitru Baleanu, Lebanon

J. Alberto Conejero, Spain

Mahmoud Abdel-Aty, Egypt

Jamal-Odysseas Maaita, Greece

Juan R. Torregrosa, Spain

Ali Akgul, Turkey

A.Cordero, Spain

Luis Vazquez, Spain

Amar Debbouche, Algeria

(Tentative) Invited Speakers

Yeliz Karaca, USA

Mir Sajjad Hashemi, Iran

Sunil Dutt Purohit, India

Adem Kilicman, Malaysiya

Abdelsalam Gomaa Abdelsalam, Qatar

Sunil Kumar, India

Zakia Hammouch, Morocco

Amin Jajarmi, Iran

Nauman Ahmed, Pakistan

Zaid Odibat, Jordan

Abdullahi Yusuf, Turkiye

Carlo Grebogi, UK

Raoul Nigmatullin, Russia

Babak Shiri, China

Irina Perfilieva, Czech Republic

Mohammad Hossein Heydari, Iran

Praveen Agarwal, India

Jan Awrejcewicz, Poland

Liliana Guran, Romania,

Krishna Pada Das, India

Nauman Ahmed, Pakistan

Muhammad Farman, Cyprus

Authors are invited to submit extended abstracts but not limited to, on the following topics:

•ADVANCES IN DIFFERENTIAL AND DIFFERENCE EQUATIONS WITH APPLICATIONS: During the last few years, the theory of fractional differentiation has been successfully applied to the study of anomalous social and physical behaviors, where scaling power law of fractional order appear universal as an empirical description of such complex phenomena. Recently, the difference counterpart of fractional calculus has started to be intensively used for a better characterization of some real-world phenomena. Systems of delay differential equations have started to occupy a central place of importance in various areas of science, particularly in biological areas.

•APPLIED MATHEMATICS AND MODELING: Computational Methods, Ordinary and Partial Differential Equations, Mathematical Modeling and

Applied Mathematics, as well as their extensions and generalizations in one or more variables.

•NUMERICAL ANALYSIS AND APPLICATIONS: Linear systems of equations, Nonlinear systems of equations and optimization, Interpolation and approximation, Integration, Differential equations, Theory and practice of computational methods, mathematical physics, and other applied fields; Mathematical models of elasticity theory, hydrodynamics, fluid dynamics, and geophysics; Parallelizing of algorithms; Models and methods of bioinformatics.

•ANALYSIS AND ITS APPLICATIONS: Approximation Theory and Its Applications, Ergodic Theory, Sequence Spaces and Summability, Fixed Point Theory, Functional Analysis and Its Applications and related topics.

•ALGEBRA and RELATED TOPICS: Ring and Module theory, Group theory, Semigroup theory, Linear Algebra, Algebraic combinatorics, Algebraic graph theory, Homological Algebra,

Optimization, Bio Mathematics, Data Analysis and related topics.
•FRACTIONAL-ORDER INTEGRAL AND DERIVATIVE OPERATORS AND THEIR APPLICATIONS: In recent years, various families of fractional-order integral and derivative operators, such as those named after Riemann-Liouville, Weyl, Hadamard, Grunwald-Letnikov, Riesz, Erdelyi-Kober, Liouville-Caputo, and so on, have been found to be remarkably important and fruitful, due mainly to their demonstrated applications in numerous seemingly diverse and widespread areas of the mathematical, physical, chemical, engineering, and statistical sciences. Many of these fractional-order operators provide interesting, potentially useful tools for solving ordinary and partial differential equations, as well as integral, differintegral, and integro-differential equations; fractional-calculus analogues and extensions of each of these equations; and various other problems involving special functions of Mathematical Physics and

Algebraic topology, Fuzzy Algebra, Cryptography.
•APPLIED ALGEBRA AND ITS APPLICATIONS: Cryptography, Combinatorics and Its Applications, Cellular Automata, Computational Algebra, Computational Group Theory and related topics, Information Theory and Error Correcting Codes.
•GEOMETRY AND ITS APPLICATIONS: Algebraic Geometry and Its Applications, Differential Geometry, Kinematics and related topics.
•ALGEBRAIC STATISTICS AND ITS APPLICATIONS: Algebraic statistics and its applications, Probability and Statistics Applications.

Please note that the conference language is English. Send us your abstracts through the online registration form for oral or poster presentations. The talks given by plenary speakers will be 50 minutes including a ten minute question and answer session while the contributed talks will be 20 minutes including the question and answer session.

A number of leading researchers working on new trends in mathematics will be invited to deliver keynote lectures. Authors should submit their abstracts at the webpage:

<http://www.ntmsci.com/Conferences/ICAAMM2026>.

The Abstract should clearly state the objectives, results and conclusions of the work undertaken and emphasize the novel aspects of the work. Contact information and affiliation of the corresponding author must be included. All accepted abstracts will be published in a Proceedings Book. All authors of accepted abstracts to the Conference for presentation are invited to submit a full paper version to be considered for possible publication in special issues of indexed journals. Submitted papers for journal will go through the standard review process of the journals.

IMPORTANT DATES

June 15, 2026	Extended Deadline for submission of abstracts
June 15, 2026	Notification of acceptance of abstracts
June 15, 2026	Deadline to pay the registration fee
July 1, 2026	Announcing the symposium program

REGISTRATION FEES: Non Student 300 (Euros), Student 200 (Euros). This cost covers items such as symposium bag with conference programs and abstracts, lunches, the Opening Cocktail, refreshments.
